

Manufacturing Industry Insurance

Manufacturing has been the backbone of the Australian economy for decades, representing a \$109 billion contribution to GDP.

Despite challenging economic times leading to some manufacturing being forced offshore, it's still critical that your manufacturing business is covered sufficiently for your specific needs.

The Industrial and Manufacturing Industry covers a wide range of industrial and manufacturing services, from the manufacture of the smallest uncomplicated mechanical parts through to the largest components of complex machinery. Manufacturers are particularly susceptible to a wide variety of risk. Whether you manufacture food, textile, cement, electronics, timber or mining and construction products, it's imperative that you have an appropriate insurance policy in place before commencing operations.

We are able to work with your insurers to source a range of insurance policies that cover property loss or damage, professional indemnity, business interruption, public and products liability and marine transit, as well as more specialised insurances such as product recall and trade credit.

We know your business is unique and will work closely with you to identify the particular risks associated with your operations, to source suitable cover at a competitive price.

As an Authorised Representative of PSC Connect, we are part of PSC Insurance Brokers, Australia's largest privately owned insurance network. With offices around the country, we can call on 400 staff to help us help you.

That means we've got more to offer you and help you negotiate your way through your insurance. Whether that's just working with you to understand your business and the range of risks that are unique to your business, through to using our considerable buying power to negotiate with insurers on your behalf.

We have access to a range of comprehensive insurance solutions that will provide a solid foundation for your project:

- Business Interruption
- Directors' and Officers' Liability
- Product Recall
- Statutory Liability
- Machinery Breakdown
- Marine & transit
- Property
- Public and Products liability
- Management Liability including errors & omissions
- Supply chain management
- Trade credit
